DETAILED ACTION

Any rejections and/or objections, made in the previous Office Action, and not repeated below, are hereby withdrawn.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

Claim 19 is objected to because of the following informalities:

Claim 19 lists B₂O₃ twice. Appropriate correction is required.

Claim Rejections - 35 USC § 102

Claims 9-38 rejected under 35 U.S.C. 102(b) as being anticipated by Beguin et al. (WO98/30507).

Examples I to VII anticipate one of more of claims 9, 10, 12-15, 17-20, 22-25, 27-30, 32-35, 37 and 38. See Table 3, page 11.

It is noted that the lower limit for BaO in some of the claims is 1 mass% whereas the example of the reference contain 0.6 parts by weight BaO. However, 0.6 parts by weight is 1 part by weight when considering one significant figure.

It should further be noted that the claims recited mass percent and the reference recites parts by weight. However, the examples in table 3 add up to 100. Therefore, the parts by weight disclosed by the reference is identical to weight percent. Moreover, it is the examiner's understanding that weight percent and mass percent are identical.

Art Unit: 1755

The reference fails to disclose the properties recited in claims 11, 16, 21, 31, and 36. However, a glass's properties are determined by its composition and the composition of the reference is identical to the presently claimed composition. Therefore, the claimed properties are assumed to be inherent to the glass of the reference. See MPEP 2112.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

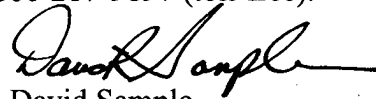

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
